

Important Information:

Dear Students and Partners,

please be aware that the course program for the new term might change a little and some course might not be offered anymore. Also, we will have some additional courses offered by the business school.

Please use the past and recent course program as an orientation and keep in mind that the learning agreement might need to be updated after your arrival at THI. The new program will be ready at the earliest by Mid-September. This is because our faculties start with planning shortly before new semester starts. As soon as we receive the official program for the upcoming term, we will upload this into our cloud. Of course, you can reach out to us about the courses by Mid-September also.

By then we can provide you a more accurate information about the offered program. Furthermore, you are also allowed to select classes from all our faculties.

Kind regards

Your International Office
